Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Figures 2 and 3A read on claims 1-13, in the reply filed on 07/06/2007 is acknowledged. The traversal is on the ground(s) that in the initial examination, both method and apparatus were examined and that both the method and apparatus claims do not place a serious burden on the examiner. This is not found persuasive because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Stein et al. (U.S. 2002/0165555 A1).

Stein et al discloses substantially as claimed in figures 1 and 6, a method of removing a polyp (40) from a surface comprises a polyp severing head (22,34)

extending from a sheath (20) and retractable from the sheath (20); wherein the polyp severing head (22,34) having a conductive hook (44, col. 3, lines 19-22) for engaging the polyp (40) and for discharging electrical energy into the engage polyp (40).

Response to Arguments

3. Applicant's arguments, see remarks, filed 04/16/2007, with respect to the rejection(s) of claim(s) 1-33 under Dolgin '553 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Stein et al. (U.S. 2002/0165555 A1).
